Transition Technologies MS S.A. (TTMS)

<u>About us</u>

Transition Technologies MS S.A. (TTMS) is a rapidly growing provider of modern IT outsourcing in Poland and foreign markets. TTMS belongs to the Transition Technologies Group, one of the largest entities in the IT industry in Poland.

Our goal is to become a global supplier of IT services. We are a certified partner of Adobe, Salesforce, and Microsoft. TTMS has a highly qualified staff familiar with local markets, operating on three continents. TTMS owns the following subsidiaries: TTMS Software UK LTD (London, United Kingdom), TTMS Software SDN Bhd. (Kuala Lumpur, Malaysia), TTMS Nordic (Brøndby, Denmark), Pixel Plus (Zurich, Switzerland), and TTMS India (Bengaluru, India). In Poland, we have 8 offices, including our headquarters in Warsaw at Varso Tower. We currently employ over 800 specialists, but – if necessary – thanks to the resources of the TT Group, we can choose from more than 2000 experts.

The core services provided by TTMS include: development and maintenance of IT systems, comprehensive project implementation, IT consulting, e-learning training, and dedicated service centers. Among the technologies and competencies utilized by TTMS are: the Salesforce platform, Adobe Experience Manager (AEM), cloud computing, Microsoft solutions, Enterprise-class systems, Data Science, Business Intelligence.

The most innovative technologies used in services allow the Company to acquire interesting contracts, including with NATO Innovation HUB and collaboration in the field of Data Science with clients from the pharmaceutical industry. TTMS is, among others, a provider of advanced IT services for Roche on a global scale. The company also has the status of an R&D Center in France, which is the result of cooperation with its long-term client - Schneider Electric.

<u>Cooperation model</u>

The focus of our business is providing outsourcing services in the IT sector. The complete team of experts we deliver, thanks to their competencies, covers all the roles required for the implementation of a project or the maintenance and development of an entire information system. An organization that entrusts us with all activities notes financial and organizational savings while maintaining total control over strategic assumptions, fully focusing on the core of its business.

This proprietary model of cooperation has been developed by serving both Polish entities and international corporations – we provide our services to organizations such as ABB, Roche, Pearson, Schneider Electric, Alstom, Pit-Radwar, the European Space Agency (ESA), Bitronics, and NATO. We can boast of long-term contracts in areas such as pharmaceuticals, the defense sector, and space. These require us to have appropriate licenses, security clearances, and secured development and testing environments. The most interesting case studies of our implementations can be found here.

Services offered

- IT outsourcing
- implementation, maintenance and development of systems
- user training, consulting

Our competencies

For years, we have been developing our competencies, specializing in specific technological solutions. Salesforce, Adobe Experience Manager (AEM), Microsoft, and the design and creation of e-learning courses play a key role in our offering today.

We program in languages such as Java, Spring, Hibernate, JavaScript, React, Angular, Vue.js, CSS, HTML, Bootstrap, Node.js, Python, .Net Web & Desktop (C#), C/C++, Mobile (Android, iOS, Hybrid), and Ruby on Rails.

We serve, among others: the following technological areas:

- **Salesforce** (CRM Sales Cloud, Marketing Automation, Service Cloud, Community Cloud, Field Services)
- **Devops & Cloud** (AWS Cloud, Microsoft Azure, DevOps, Google Cloud)
- **Microsoft** (m365, Azure, Power BI, Power Apps)
- **Adobe Experience Manager** (AEM Projects, Development and Maintenance of AEM Portals, AEM Content Entry, AEM Technical Consulting, AEM Product Training)
- **Quality Assurance** (Validation Process, Qualification Process, Quality Process CSV/ISO Auditor, Automated testing, Manual testing)

Awards

We are recognized and awarded not only for our outsourcing activities (Forbes Diamonds 2023, TOP 200 rankings of Computerworld in 2023) but also for our care for the environment (Climate Partner certificate, awarded during the Krynica Forum 2022). Considering the significance of our impact on the environment, we have decided to implement an environmental management system in accordance with PN-ISO 14001, as well as the ISO/IEC 27001 Information Security Management System.
